

National Roundtable 2016: Enhancing Environmental & Sustainability Education in Canada's Faculties of Education:

*The National Roundtable aims to bring together teacher educators, researchers, policy-makers, Aboriginal scholars, graduate students, and community partners to establish a national network of educators and researchers dedicated to strengthening Environmental and Sustainability Education (ESE) in pre-service teacher education. The Roundtable will provide opportunities to analyze ESE in Canadian pre-service teacher education programs, share existing research, exchange teaching strategies, and create a collective **Action Plan** in order to catalyze curricular, pedagogical, and professional responses in this field.*
